EMC 5000
DVDock

Don't use a flimsy bag that is difficult to install, frustratingly unstable and makes your car interior look cheap and tacky. Instead use DVDock, the perfect alternative. It fits in most cars (except Volvo) and compatible with most players up to 10'' (screensize). The DVDock is easy to install, and placing/removing your player is done in seconds. The tilt function allows for the perfect viewing angle (reduce sun reflection in your screen). Last but not least : it has stylish design and is made of high quality materials.

Features

- Tilt function
- Easy install
- Universal
- Adustable arms
